## **DETAILED ACTION**

### ***Reasons for Allowance***

1. The following is an examiner's statement of reasons for allowance:

The isolated nucleic acid of the instant application is novel and nonobvious and encodes a novel and nonobvious human Survival of Motor Neuron-Interacting Protein 1 that differs from the amino acid sequence of SEQ ID NO: 2 by a mutation wherein said mutation is selected from the group consisting of a deletion of the carboxyl terminal 89 amino acids relative to the amino acid sequence of SEQ ID NO: 2 and a deletion of the carboxyl terminal 162 amino acids relative to the amino acid sequence of SEQ ID NO: 2, and further wherein said nucleic acid comprises a nucleic acid encoding a tag polypeptide linked thereto. The claims of the instant application are free of prior art because the nucleic acid molecule, vectors containing the nucleic acid molecule, recombinant cells containing the nucleic acid/vector, and a complementary nucleic acid have not been disclosed or studied in the prior art. The specification meets 35 U.S.C. 112, first paragraph, requirements because it contains an adequate written description of the invention that enables one of ordinary skill in the art to make and use the invention. The specification also sets forth the best mode to carry out the invention. The claims also meet 35 U.S.C. 112, second paragraph, requirements because the claims point out and distinctly claim the invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bridget E. Bunner whose telephone number is (571) 272-0881. The examiner can normally be reached on 8:30-4:30 M-F.
